

Wireless Mini Optical Mouse

The Targus wireless mini optical mouse with 27MHz RF technology provides up to two metres operating range and 800dpi for precision and accuracy whilst typing. The Wireless Mini mouse is the perfect device for busy travellers. RF Wireless means working without hesitation, delay or interference. A battery-saving on-off switch saves time and expensive replacement batteries. Optical technology provides precise tracking on virtually any surface so you can work anywhere. And with the ultra-compact design and travel bag, there's just one very small thing to carry!
