FROM CABLE CHAOS TO RACK EFFICIENCY

Less Downtime. Less Effort. More Efficiency.

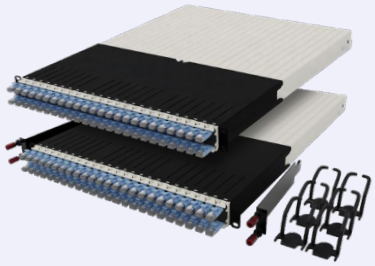
A complete rack solution brought together by EET, combining professional infrastructure, intelligent cable management, and efficient installation tools to help you deploy faster, troubleshoot quicker, and reduce operational costs. These SmartRack Solutions help IT teams reduce downtime, accelerate maintenance, and keep server rooms organized for years to come.

What's Included?

W128317352 | Lanview 42U Rack Cabinet

The Foundation

A robust and scalable European rack solution designed for modern network and server environments. Featuring optimized cable routes, adjustable mounting rails, easy access from all sides, and flexible expansion options, it provides the ideal foundation for organized, efficient, and future-ready IT infrastructure.



W128959573 | PATCHBOX.one

The Organizer

Innovative cable management with retractable patch cords that keep your rack clean, organized, and easy to maintain.

W126582742 | PATCHBOX Setup.exe

The Installer

A smart installation assistant that helps mount equipment faster, easier, and safer.

Cleaner Racks. Less Downtime. Lower Costs.

LANVIEW PROFESSIONAL NETWORK SOLUTIONS

Why choose a SmartRack Solution?

Are These Rack Challenges Familiar?

- Cable clutter slows down troubleshooting
- Hardware replacements take longer than necessary
- Valuable technician time is spent tracing cables
- Downtime impacts productivity and business operations
- Rack expansions become difficult and time-consuming
- Only a few experts know how the rack is connected
- Finding the right rack accessories and compatible infrastructure components

Why This Solution?

The real value comes from combining Lanview's scalable rack infrastructure with PATCHBOX intelligent cable management in one complete solution. Together, they create a cleaner, more efficient, and future-ready network environment.

- Faster troubleshooting and hardware replacements
- Reduced maintenance effort and downtime
- Clean, organized, and easy-to-manage racks
- Simplified future growth and upgrades
- Improved technician productivity
- Lower operational costs throughout the rack lifecycle

Save Time. Save Money. Save Effort.

A well-organized rack helps your team work faster, reduce downtime, and maximize the long-term value of your infrastructure investment.

Every minute spent searching for the right cable is money lost. This solution helps you get that time back.

Delivered as a Complete Solution by EET

As one of Europe's leading technology distributors, EET brings together trusted infrastructure and networking technologies into ready-to-deploy solutions

- Complete solution from a single source
- Reliable product availability
- Pre-sales and project support
- Simplified procurement

Trusted Technologies. One Complete Solution.
