Automatically adjusts time, water and energy consumption based on the load size
The 6000 ProSense® Washing Machine automatically adjusts time, water and energy consumption to the size of the load, even if it just a single shirt or your entire weekly laundry. Ensuring your clothes are only washed for the exact amount of time needed to maintain colours and textures for longer.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

Product Benefits & Features

Prosense® reduces up to 30% of time, water, and energy* by optimising every load
ProSense® automatically weighs each load to provide a tailored cycle. It can reduce your time, water, and energy usage by up to 30% when comparing 1kg vs maximum load*. Sensors adjust washing times precisely, providing optimum treatment for every garment. Ensuring your laundry comes out with that

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense® for a 1kg load vs. maximum load.

Less creases with EasyIron
The EasyIron programme leaves your clothes with fewer creases. During the gentle cycle, the drum alternates the direction of its rotation, allowing clothes to move more freely. So you spend less time standing over your ironing board.

The hygiene programme removes more than 99.99% of bacteria and viruses*
The Hygiene programme certified by Swissatest is a high-performance wash cycle that removes more than 99.99% of bacteria and viruses* from clothes. By keeping your wash temperature above 60°C, you can also reduce allergens.

*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swissatest Testmaterialien AG in 2021 (Test Report No. 202120117)

Mixload 69 min customises laundry cycles and saves you time
The MixLoad 69 min programme adjusts energy usage based on load weight when cleaning daily mixed loads. It washes clothes at 30°C and in just 69 minutes. Achieve optimal performance and outstanding cleaning results with MixLoad 69 min.

Inverter Motor+. Durable and energy-efficient
Inverter Motor+ is the advanced evolution of the inverter motor. Its permanently magnetized rotor eliminates the need for magnetization, delivering precise control and consistency, and enabling accurate load recognition through a dedicated algorithm.

- Capacity guide: Suitable for a small family.
- MixLoad69: Wash your daily mixed loads at just 30°C in only 69 minutes.
- Delicates: Gently washes the most delicate of fabrics.
- TimeSave: Cuts cycle time by up to half for a faster, flexible wash.
- Aqua control: An internal system which monitors the water level to detect leakage.
- Prewash option
