Mini Keyboard with Bluetooth

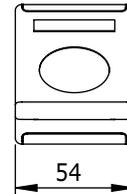

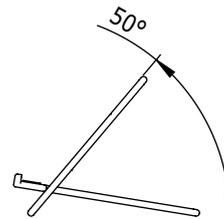

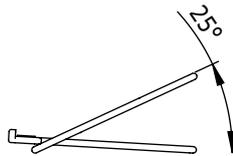

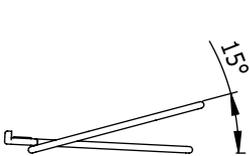

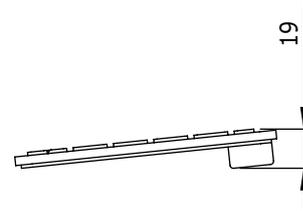

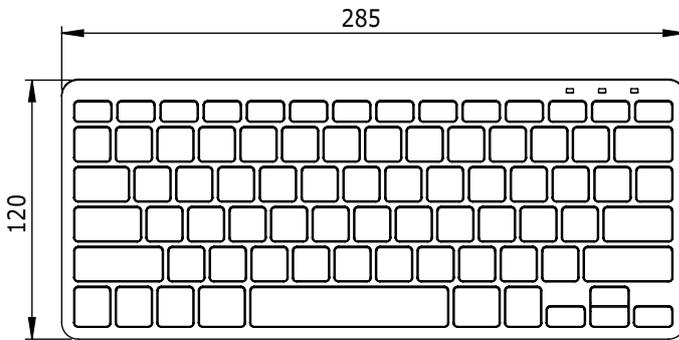

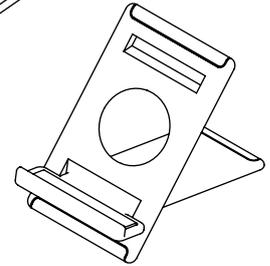

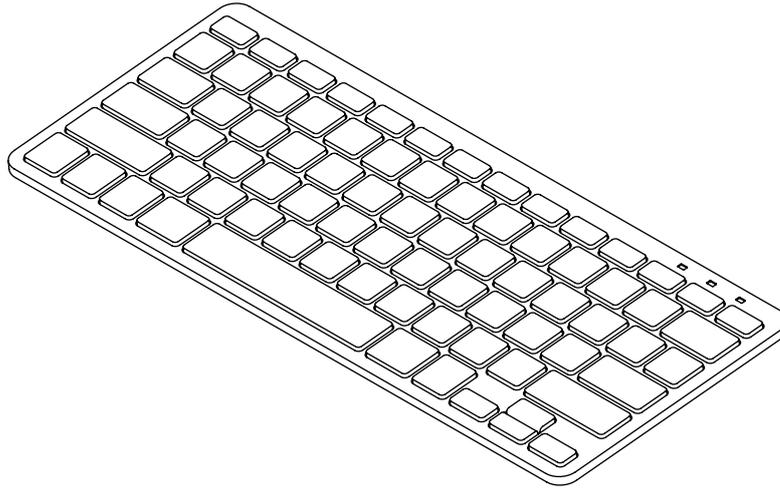

Designed with mobile workers in mind. Using a Bluetooth connection, the touch of a button will pair the keyboard to most phones and tablets for quick and precise typing. Simply connect it to a USB port on a laptop or notebook and start typing away. It's a nifty compact ergonomic travel companion.

- Powered via USB, no batteries required
- Compact and lightweight design
- QWERTY US-International layout
- Includes a smartphone stand (MiniRizer) which is adjustable to a 15°, 25° and 50° angle
- On iPhone/iPod touch, the function keys (fn+f1, f2 etc.) control screen brightness, navigation, volume and audio track selection
- Cable length 1,5m
- Weighs 431g

System Requirements:

- PC or Mac with USB(-A) port
- Works with an iPhone 3GS or newer, iPod touch 3rd generation (2009) or newer, iPad, Bluetooth connection also compatible with Android 3.0+ smartphones and tablets (possibly with limited availability of advanced features).
