Lucca Outdoor pedestal

Hue White and Colour Ambiance

- White and colour light
- 1100 lumen
- App and voice control
- Matter-compatible

8721103118691

Easy smart lighting

The Lucca pedestal light, with its compact contemporary design and black bands, offers a wide distribution of tunable white and colour light for pathways, patios and garden borders. Bring a diffused glow of functional light to help guide you around your outdoor spaces. Or set the pedestal light to any colour to add decorative highlights to plants and trees. Control Lucca effortlessly with the Hue app and smart assistants using a Hue Bridge or Bridge Pro. Zigbee network connectivity with a Bridge means no unauthorised access to your smart light ecosystem. Matter compatibility enables simpler, seamless integration with devices from other brands.

Limitless possibilities

- Beautify your backyard with outdoor lighting

Easy control and comfort

- Set your lights to welcome you home
- Smart control, home and away
- Set timers for your convenience

Issue date: 2026-08-05 Version: 0.50

Full control from a smart device with the Hue bridge

- Requires a Philips Hue bridge

Specially designed for your outdoor spaces

- Weather-proof (IP44)
- High-quality aluminium and superior synthetics

Highlights

Beautify your backyard

Give your garden a chance to shine as brightly as your home. Over 16 million colours and 50,000 shades of warm and cool white light allow you to decorate the outside just like the inside, whether you're illuminating a walkway or shining a spotlight on your favourite part of the patio.

Welcome you home

Experience the comfort of your lights turning on automatically when you arrive and turning off when you leave. Unpack your car, enter your house, all with the comfort of the right light. Just set the Hue app to Home or Away mode to switch on all your lights, or let geolocation do it for you, all without touching a button. It's as easy as that.

Smart control, home and away

Light up your outdoor spaces and see what's going on outside. By connecting your outdoor lights with the Hue Bridge, you can control them in any way you like. With our indoor remote-control options such as the Philips Hue app or using your voice (Amazon Alexa, Apple HomeKit or Google Assistant), you can control your outdoor lights. You can set light schedules to mimic your presence. Control your outdoor lighting from the comfort of your home or from any other location.

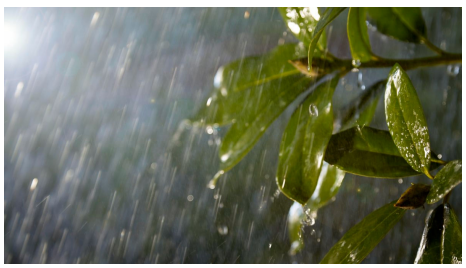
Set timers for convenience

Enjoy longer evenings outside, finish the gardening or just take the rubbish out after sunset. Have your Philips Hue lights turn on automatically by setting schedules or using the sunset/sunrise routine. And of course, you can also turn off or dim your lights this way. You'll never have to worry whether you've left any lights on.

Requires a Philips Hue bridge

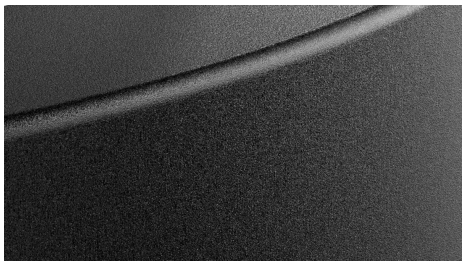
Connect your Philips Hue lights with the Bridge to control your lights from your smart phone or tablet via the Philips Hue app. Or control your Philips Hue lights with the Philips Hue dimmer indoor switch for on/off and dimming functionalities.

Weather-proof (IP44)



This Philips Hue outdoor fixture is specially designed for use in outdoor environments and has undergone rigorous tests to ensure its performance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This lamp is designed with IP44: it is protected against water splashed from any direction. This product is ideal for general outdoor use.

High-quality



The products are made specifically for outdoor use. We use the highest-quality materials to ensure the best performance in outdoor conditions, as well as smart use of materials to optimise radio frequency.
