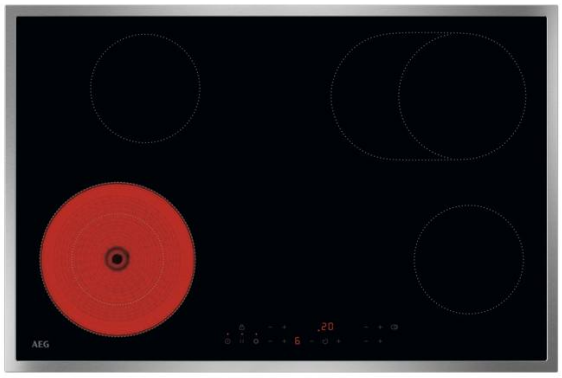
3000 Ceramic Hob 80cm

NRN84A06XB



Professional performance thanks to larger cooking area
This hob's larger cooking area provides the space you need to cook to professional standards, especially when larger, specialist pans are required.

Product Benefits & Features

Maximise your cooking options
This large hob has both an extendable zone and an oval multipurpose zone, which means you can use any size or shape of pan for the task at hand.

Optimise your time by efficient use of power
Make the most of your time thanks to this hob's Automax function. It heats your hob up extra-quickly, so you can get cooking straight away.

Keep complete control over cooking time
The adjustable timer, which lasts up to 99 minutes, reminds you of the cooking time and also acts as a minute minder when you're not using the hob itself.

A hob that cannot be mischievously switched on
The child safety lock ensures that the hob cannot be accidentally – or mischievously – switched on.

Put your cooking on hold
If you get interrupted while you are cooking, touch the Pause button. It stops all the heat when you are called away from the hob, so nothing burns. Pause remembers the heat levels you were using, and with another touch you are back on course.

- Pause functionality allows you to take short breaks without losing your cooking settings.
- OptiFix™: Only one step to install the hob.
- Child lock safety function.
- Residual Heat Indicators
- Minute Minder
