Life's Good

LG

Premium and Style

80 Series

L1780Q, L1980Q

The 80 Series represent style and cutting edge functionality. With Forte Hinge and Forte Mirror technology the monitor can be turned 360° backwards and the screen contents will automatically rotate. Forte Pivot allows the screen to be turned from landscape to portrait and with the slimmest monitor head depth at just 26mm, the monitor can even be folded flat to a height of 52mm. Ideal for business applications or for the consumer who likes to be at the leading edge of technology. Available in 17" or 19" models.

80 Series

40 Series

L1740P, L1740B, L1940P, L1940B

The elegant, curved form of the 40 Series is perfect for style conscious individual looking for a design statement. With Flatron f Engine technology, a high contrast ratio, wide viewing angle, low response time and DVI available. Models include 17" or 19".

40 Series

13 Series

L1713P, L1913P, L2013P

The 13 Series are designed and equipped to play an integral role in every office. Features include height adjustment, Swivel, Pivot and Tilt functionality. The Ultra narrow bezel design, allows the monitors to be tiled. With Digital input and certified to TCO-03 – with the 13 Series work has never been made easier. Available in 17", 19" or 20" models.

13 Series

Main LCDs

50 Series

L1550S, L1750H, L1750G, L1750S, L1950H, L1950G, L1950S

With the 50 Series users will enjoy all the benefits of LG's advanced LCD screen technology that eliminates glare, image distortion and screen flicker, allowing sharp, comfortable viewing without fatigue. With a fast response time, ultra slim bezel design, LightView function and certified to TCO-03. Available in 15", 17" or 19" models.

50 Series

30 Series

L1530S, L1730S, L1730B, L1730P, L1930S, L1930B

The ergonomic design of the 30 Series makes it perfect for the working environment. With a sophisticated circular stand and streamlined curved back, a quick response time, integrated Flatron f Engine technology for high digital picture quality, high contrast ratio and a new standard in brightness, users looking for a balance between design and performance need look no further. Models include 15", 17" and 19" versions.

30 Series

10 Series

L1510M, L1710M

With integrated speakers these silver monitors are ideal for web based and interactive communication applications. The power block is incorporated into the back of the panel reducing cable clutter and making wall mounting simple and easy. Other features include on touch automatic resizing for intelligent image resizing at the touch of a button as well as LightView function. Available in 15" or 17" models.

10 Series

15 Series

L1515S, L1715S, L1915S

The 15 Series is the perfect choice for small offices, the home or educational users. With their built-in power adapter for reduced cable clutter and mounting slots, the monitor can be easily wall mounted. OSD lock function prevents unwanted changes to the display settings and the Auto Adjustment Function automatically sets image position, phase and pitch. With LG's LightView function users can freely adjust brightness and colour according to their application. Models include 15", 17" or 19" versions.

15 Series

MFT

L172WT, L2323T, L3020T

LG offers multi-purpose all in-one display solutions for a variety of PC and home entertainment uses. With wide screen 15:9 aspect ratio, various AV/TV functions, remote control, TV tuner, and Multimedia speakers available. Models include 17", 23" or 30".

L2323T

L172WT

L3020T

Large LCDs

L3200TF, L3700TF, L4200TF,

Ideal for public information display, a better alternative to plasma in terms of product life, power consumption, noise and glare. With high performance, wide viewing angle, superior resolution and ultra high brightness. Easily wall mountable. Models include 32", 37", 42",46" all with TV tuner.
