- **Clock:** Smart Clock
- **Digital Content Management:** Digital Photo Manager
- **Ease of Installation:** Follow TV, Autoinstall
- **Programmable Events:** 25

Power

- **Power supply:** 200-240 V, 50Hz
- **Power consumption:** 35 W
- **Standby power consumption:** 3

Accessories

- **Included Accessories:** AC Power Cord, Antenna cable, Full SCART cable, Remote Control, Batteries for remote control, Quick-Start-Guide, User Manual, Sat Mouse, Warranty certificate
- **Remote control:** 242254900739

Dimensions

- **Set dimensions (W x H x D):** 435 x 76 x 335 mm
- **Set weight:** 5 kg
- **Packaging dimensions (W x H x D):** 549 x 160 x 443 mm
- **Weight incl. Packaging:** 7.5 kg

Product highlights

HDMI

HDMI stands for High Definition Multimedia Interface. It is a direct digital connection that can carry digital HD video as well as digital multichannel audio. By eliminating the conversion to analog signals it delivers perfect picture and sound quality, completely free from noise. HDMI is fully backward-compatible with DVI.

Pause Live TV

A very large built-in memory records the program you are currently watching when you press the pause button. When it suits you, you can resume the program from the moment you pressed 'pause' as if you're watching a live program.

FlexTime

With FlexTime you can watch a program while it's still being recorded, thanks to the extreme speed of a Hard Disk. You can also watch a different program from the Hard Disk while it's recording something else.

GUIDE Plus+

GUIDE Plus+ is an Electronic Program Guide – a free on-screen TV Guide that shows what's on TV for the next couple of days and lets you program the timer of the DVD Recorder with the push of a button.

Dual Media Support

Philips DVD Recorders support 'dual media' recording, which is the ability to create recordings on + and - discs (DVD+R/+RW/-R/-RW). The consumer can buy any disc and the recorder will always create fully compatible recordings with any other DVD player.
