Introduction

A must for any commuter, these notebook power adapters and chargers provide your notebook several charging options. Simply plug the adapter into the appropriate wall, auto or aircraft connection for power to the notebook without using up battery life. An additional AC adapter provides power for the notebook and charges the battery simultaneously. The auto power adapter provides all the charging convenience of the home or office by utilizing the cigarette lighter to charge the battery and power the notebook. The aircraft adapter powers the notebook and complies with industry regulations by not charging the battery while powering the notebook. These adapters provide you with the ability to power the notebook when away from the home or office.

Compatibility

The 65W and 90W AC Adapters are compatible across all HP notebooks and Tablet PCs (except the HP Compaq nx9100 and nx9105). The 135W AC Adapter is compatible with HP Compaq nx9100 and nx9105 notebooks.

The 90W Auto/Air Cable is compatible across all HP notebooks and Tablet PCs (except the HP Compaq nx900x, nx5000 and nx9000 series notebooks).

The 90W Auto Adapter with Tablet PC dongle and the 10 ft AC power cable are compatible across all HP notebooks and Tablet PCs (except the HP Compaq nx9000 series notebooks).
