ViewMaster M6 Monitor Arm 022

These parallel arms are designed to be as ergonomically sound as possible, configuring multiple user workplaces. The arms are easy to adjust in height without much effort and without having to correct the screen's tilt. Therefore the M6's are a definite improvement towards a higher standard in ergonomics.

- Built-in SUSPA® gas-spring
- Parallel mechanism
- Step less height adjustability: 305mm
- Integrated/concealed cable management
- Die-cast aluminium
- VESA: MIS-D 75 x 75/100 x 100mm compatible
- Rotate 180°, tilt 180°, lateral 180°
- Weight capacity: 4,5kg-10kg (up to 24"/24"W)
- Maximum reach: 380mm
- Three-dimensional movement
- Touch screen stable
- To be mounted on several ViewMaster Modular components
