

HP Personal Media Drives HD3000s and HD5000s

The HP Personal Media Drive is the fast and easy way to add high-speed storage to your PC. It provides the storage you need for your digital photos, videos, MP3 files and recorded TV programs, and it serves as a great way to back up your personal files. It can also be easily moved between PCs and notebooks when you need to transfer data.

The HP Personal Media Drive is a neat, sleek external drive that can connect directly to your laptop or PC via USB cable. It's designed to fit into the front of the HP Pavilion Elite m9000 PC, so you can add storage without opening up your PC or even turning it off, and without having to find more space or handle more cables.

Key Benefits & Features

Get the space you need for your digital entertainment content
