

HP Laser Paper, Soft Gloss

Designed for customers wanting to use their HP LaserJet printers to produce professional-looking A4 colour documents. With the ability to print on both sides, this bright 120 g/m² paper is ideal for printing datasheets, presentations and proposals.

Produce high impact documents with two-sided, soft-gloss coating.

- Elegant soft-gloss finish brings a rich, high quality look to all your documents.
- Ultra-smooth surface delivers crisp, sharp text, impressive greyscale definition and rich, vivid colours.
- Produce professional-looking documents from your colour laser printer or copier.
- Bright white paper ensures superb contrast for mono and colour documents alike.

Print both sides with minimal show-through.

- High opacity paper – produce one-sided or two-sided documents with minimal show-through.
- Choose it when you need to make an impression – ideal for internal and external documents such as reports, datasheets and proposals.
- Allows rapid, cost-effective in-house production of short-run, professional quality materials that would otherwise require an external print shop.

Make sure your documents feel as impressive as they look.

- Sturdy 120 g/m² paper feels significantly heavier, bulkier and more substantial than other premium office papers.
- Immediate impact makes this superb paper perfect for cover sheets as well as entire high value presentations.
- Ultra-smooth surface also ensures a quality feel – people notice it as soon as they touch it.

Enjoy easy, reliable printing for real productivity.

- Designed to deliver optimal performance with HP Color LaserJet printers.
- Fully compatible with most other laser printers & copiers capable of printing on 120 g/m² paper.
- Maximise your productivity and minimise waste with fewer jams, multi-feeds and mis-feeds.
- Low user intervention means you can leave documents to print and concentrate on getting other things done.

This high quality, A4 presentation paper features an ultra-smooth two-sided soft gloss finish for rich, professional-quality colours. Its 120 g/m² weight makes it ideal for two-sided printing while its high brightness ensures superb contrast.
