HP DESKTOP SECURITY FOR EDUCATION

Minimize disruption to the instructional process and financial loss to the school district

Computers being used in schools have their own special security needs. Reduce disruption to the instructional process and protect your physical assets with security accessories from HP.

Protect your internal components

Protect your investment and help keep the system up and running. Prevent access to or removal of internal components like memory, hard drive, and power supply, with the HP Chassis (dc) Security Kit, particularly designed for the education market.

Help prevent virus introduction and data theft

Keep students focused on their work and not on a movie or video they bring to class on a thumb drive. Prevent “pod slurping” or stealing data from the PC via use of a personal music player or thumb drive. HP can lock down the USB ports at the factory so the PCs will be ready for the classroom when the shipment arrives.

Integrated speakers help keep the sound system intact

The large-screen HP L1908wm 19-inch Widescreen LCD Monitor offers multimedia components such as stereo speakers and digital video inputs

integrated right into the monitor. A 19-inch diagonal screen design accommodates students and projects that can benefit from widescreen viewing. Fewer external multimedia components help keep the sound system intact.

Helps recover your abducted PC

Our Computrace solution works with local law enforcement to help recover the computer if it is abducted.¹ The software comes pre-installed in your HP Compaq dc5800, dc5850 and dc7900 Desktop PC BIOS, so all you have to do is subscribe to the available monitoring service and activate for protection.

Prevent your PC from walking off

HP has you covered with a variety of options to secure your hardware such as the HP Business PC Security Lock, the HP (USDT) Rear Port Controller Cover, the HP Wall Mount/Security Sleeve (SFF or USDT) and the HP Solenoid Lock and Hood Sensor.

¹The Computrace agent is shipped turned off and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging from one to four years. Service is limited; check with Absolute for availability outside the U.S.

HP DESKTOP SECURITY FOR EDUCATION

HP recommends Windows Vista® Business

HP Chassis (dc) Security Kit

- Safeguarding the memory and hard drive with a metal bay filler
- Securing the power supply with two screws
- Preventing cable disconnection
- Locking down the front bezel so that internal components cannot be removed

HP L1908wm 19-inch Widescreen LCD Monitor

- Stereo speakers and digital video inputs integrated right into the monitor
- Fewer external multimedia components help keep the sound system intact.
- 19-inch diagonal screen design for widescreen viewing

USB port lockdown

- Lock down the USB ports in the BIOS at the factory
- Desktop PCs are ready to deploy right when you receive them

HP Business PC Security Lock Kit

- Secure your HP Business PC in public locations such as front office, labs or libraries
- Help prevent removal of peripherals and PC chassis cover
- Monitor lock and key support
- Optional cable trap available to secure monitor cable and physically connect system to an anchor point

HP (USDT) Rear Port Controller Cover

- Prevent access to ports at the back of your HP Compaq Business Desktop
- Enhances security and convenience

HP Wall Mount/Security Sleeve (SFF or USDT)

- Mount your desktop on a wall or beneath your desk
- Frees up valuable desktop space
- Enhances security and convenience by locking down the PC

HP Solenoid Lock and Hood Sensor

- Protect your desktop from unauthorized interference or theft
- Software alerts you to tampering or removal of desktop
- Acts as a hood sensor and chassis cover lock
- Combines hardware and software security for added protection
