

COLUMNS  
 CAN BE JOINED  
 FOR INSTALLS  
 UP TO 4.2M  
 TALL

# BT8380

## VERTICAL COLUMN

BT8380 vertical support columns are the backbone of most System X trolley or floor stand installations. Made from aluminium, the column is sturdy yet lightweight and is designed to support single or multiple horizontal mounting rails. A modern design aesthetic and integrated cable management gives a high-end finish to any install in which they are used. Available in 1.8m and 0.6m lengths, columns can also be joined together using extension kits (available separately) to create video wall and other installations at heights of up to 4.2m.

### SPECIFICATION

Max load	Dependent on other components used
Lengths available (as standard)	0.6m and 1.8m
Fixing kit to mount a horizontal rail	BT8380-JPK / BT8380-JPT
Extension kit to join columns	BT8380-EXTV*
Compatible bases	BT8380-BASE / SHB / FFB / FSB / AFB
Colour	Black or Silver

\*Included with 0.6m column as standard

### FEATURES

- For use in a variety of applications; freestanding, mobile, bolt down etc.
- Ideal for videowalls and other multi-screen installations
- Compatible with a variety of floor bases for use in different applications
- Multiple columns can be joined together using BT8380-EXTV to create taller columns
- Integrated cable management for a neat and tidy finish
- Includes spare fixings to attach a B-Tech 'collar compatible' accessory (such as shelves) directly to the column
- TUV certified

SYSTEM X™

Compatible with a variety of floor bases for use in different applications
