INSTALLS

BT8381-FFB

FIXED FLOOR BASE FOR BT8381 COLUMNS

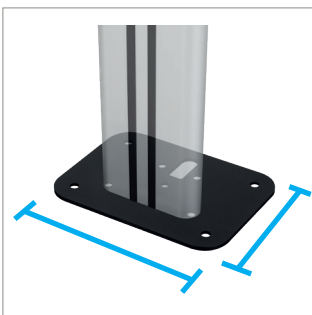

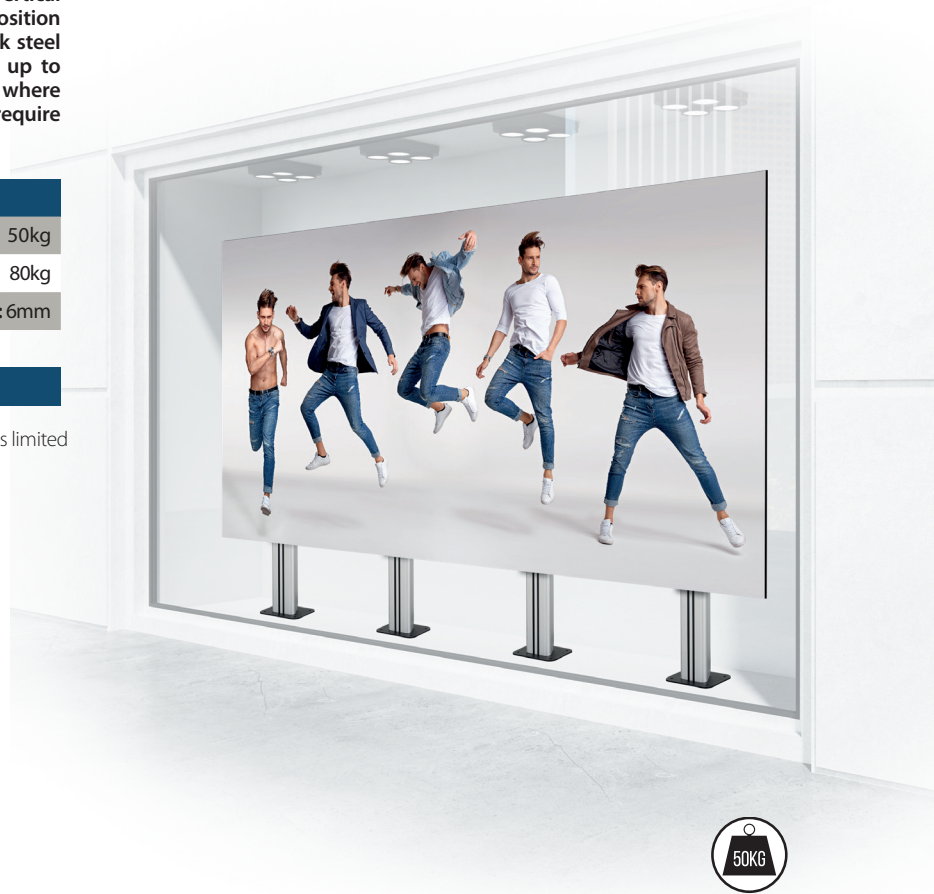

Designed to securely fix a flat screen stand to the floor, the BT8381-FFB Fixed Floor Base attaches to a BT8381 vertical column and bolts directly to the floor creating a fixed position installation with a minimal footprint. Using a 6mm thick steel plate, this base is strong enough to support loads of up to 80kg when used in pairs and is ideal for installations where floor space is limited, such as retail applications which require screens to be mounted closer to walls or shop windows.

SPECIFICATION

Max load (single column)	50kg
Max load (double column)	80kg
Base dimensions	W: 220mm D: 160mm H: 6mm

FEATURES

- Small footprint is ideal for retail applications where floor space is limited such as in shop windows or for close to the wall displays
- Use with a BT8381 column
- Heavy duty steel capable of supporting substantial loads
- Max load increases when used with another fixed floor base
- Integrated cable management

Small footprint is ideal for retail applications where floor space is limited

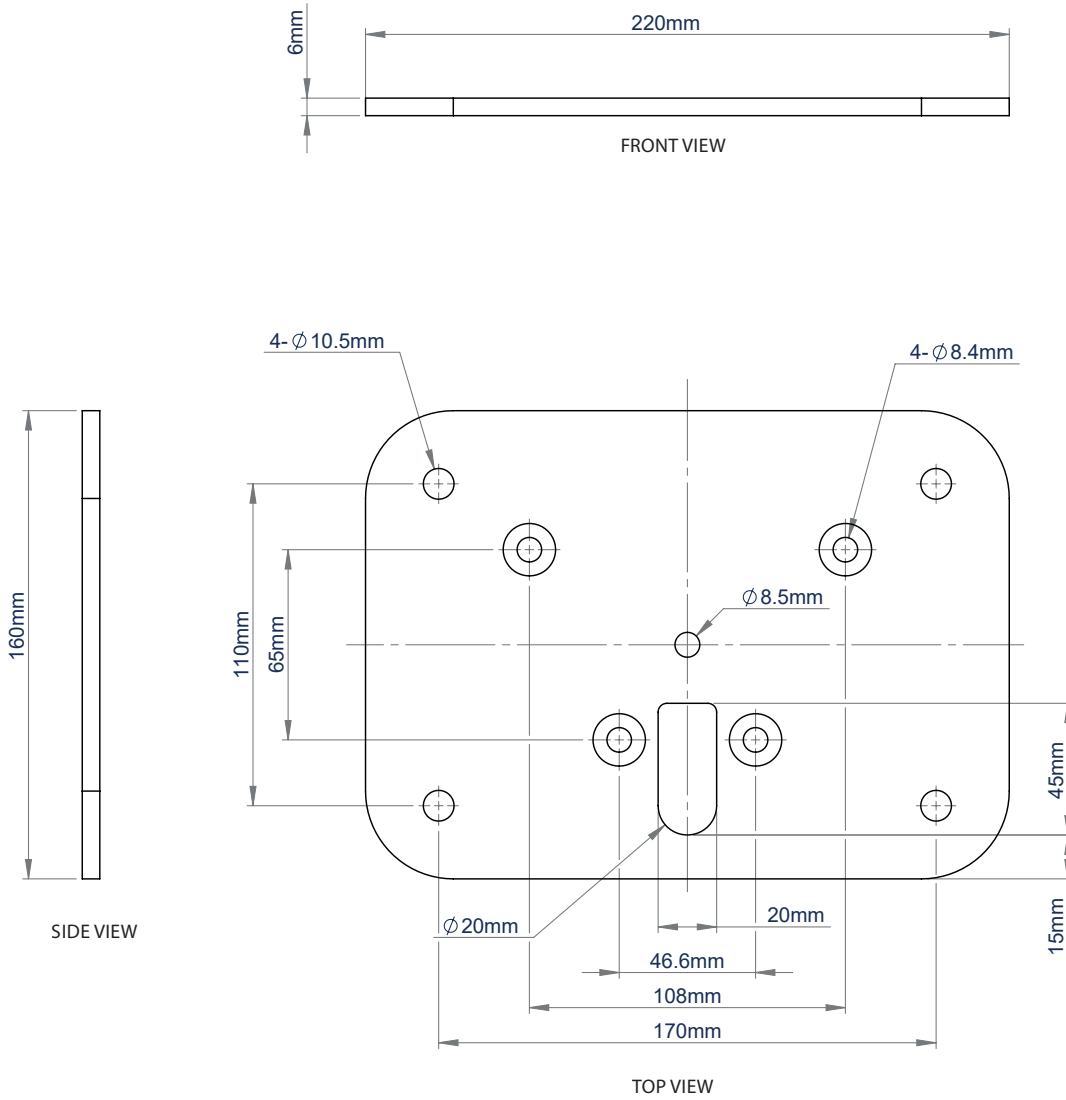

Easy installation to BT8381 columns using the included fixings

Integrated cable management for a neat and tidy installation

Can be used for large scale installations - ideal for retail environments
