DESCRIPTION

ATGBICS Universally Coded MSA AOC-QSFP28-100G-2M-AT QSFP28 active optical cables are high-performance active optical cable with bi-directional signal transmission and aggregate 100-Gbps bandwidth for both InfiniBand EDR and Ethernet 100G-SR4 applications. Compared to conventional copper cables, longer and lighter optical cables enable the ease of complicated data-center cabling. The AOCs utilize multimode fiber with 850-nm VCSELs and PIN PDs. The certificated cables have superior signal integrity and bit- error-rate, which enables reliable operation performance.
