The NewStar adapter, model FPMA-VESAMAC, provides your Apple iMac screen with a VESA hole pattern. By using a VESA pattern you can install your iMac to a NewStar desk or wall mount bracket. The Mac adapter has the VESA hole pattern: 75x75.

The adapter is compatible with the following 24" and 27" screens:

24-inch iMac,
27-inch iMac,
27-inch Apple Thunderbolt Display

How does it work? Remove the base of your Apple iMac. Mount the adapter on the back of your screen and install the desired NewStar wall- or desk mount to your screen.

This adapter offers a VESA hole pattern 75x75. Any mount with VESA75 can be combined with this VESA-adapter. Look on our website for your desired support.

This adapter is made of durable high quality metal. All installation material is included with the product.
