

premium printing material

hp designjet 5000 & cp series printers

HP Durable Image Gloss #v is a durable photobase that creates brilliant, photo-quality images that are smearand moisture-resistant with superior indoor and outdoor fade resistance.

target customer	application	user needs
professional PSPs and	 indoor signage, banners, 	• create brilliant, fade-resistant
high-end retail customers	and danglers	photo indoor or outdoor
0	 indoor posters 	signage, fast and affordably
digital photography,	 outdoor signage with lamination 	• create fade-resistant, moisture-
entertainment and fine art	 window signage and danglers 	resistant digital photos, posters
	 digital photography 	create production environment
	 fine arts 	in which faster dry time and
	• movie posters	easy lamination are enhanced
	 decor and other applications 	
	requiring fade-resistance	
features	benefits	
photo quality output	 no need to accept less than photographic image quality 	
	when a durable solution is required	
fade-resistant	• 200 years of indoor fade-resistance	e according to Wilhelm testing
	standards; 2+ years outdoors, whe	n laminated
photo-quality	 high image quality 	
,	• system designed to ensure highest i	mage quality
durability	 smear and fade-resistant without land 	
····/	 moisture resistant without lamination 	
productivity	 superior dry time 	
productivity	 print modes specially designed to e 	nsure optimal productivity
	without compromising image quality	
	 high speed printing on hp designje 	
	 moisture- and smear-resistant 	
meets post-processing requirements	 easy to laminate 	
	 inexpensive to laminate 	
product specifications		
weight thickness/calliper	200 g/m² 7.9 mil	
smoothness	10 (per TAPPI T-538 test method)	
whiteness	94 (per CIE Ganz 82 test method)	
brightness	94 (per TAPPI T-452 test method)	
opacity	94 (per TAPPI T-425 test method)	
gloss level	45% (at 75°)	
	Japan
