

2 m (6 ft.) USB to Lightning Cable - Right Angle iPhone / iPad / iPod Charger Cable - 90 Degree Lightning to USB Cable - Apple MFi Certified - White

Product ID: USBLT2MWR

This 2-meter (6-foot) angled Lightning cable is great for connecting your mounted mobile devices. You can position it as needed to accommodate your fixed-in-place iPad or iPhone.

Charge and sync your mounted devices

Wherever your iPad or iPhone is mounted, this cable provides the flexibility to suit your installation. With an angled Lightning connector, you can position the cable to the left or right of your mobile device in either portrait or landscape mode, without having to worry about straining the connection port.

Charge your device from further away

At two meters (six feet) in length, this convenient cable provides full charging power even at a longer connection distance than most. So, you won't have to endure slow charge times, even when your iPad or iPhone is mounted to a desk, a wall or in your car.

Access your device while it's charging

The angled connector positions the cable in such a way that it's easy to access your iPad or iPhone in either portrait or landscape mode, even while charging. Now, you can text, work or game without the cable getting in the way.

The USBLT2MWR Lightning cable is Apple MFi certified and backed by StarTech.com's 2-year warranty.

Certifications, Reports and Compatibility
