### Fax Only Mode

([Fax] or [Fax Only] in the machine's menu)

Fax Only Mode automatically answers every call as a fax.

If you cannot send or receive a fax, check the following:

- 1 Connect one end of the telephone line cord to the area labelled "LINE", and then connect the other end of the telephone line cord directly to a telephone wall jack.

If you can send and receive faxes when the telephone line is directly connected to the fax, the problem may be unrelated to the machine. Please contact your telephone service provider for connection issues.

- 2 Check the Receive Mode.

See *Related Information*:

- *Receive Modes*
- *Choose the Correct Receive Mode*

- 3 Try changing the compatibility settings.

You may be able to send and receive faxes by lowering the connection speed.
