### 2x M.2 NGFF SSD RAID Controller Card plus 2x SATA III Ports - PCIe

StarTech ID: PEXM2SAT3422

This M.2 SSD RAID controller card lets you install two M.2 NGFF (Next Generation Form Factor) drives in your desktop computer. The card also features two SATA III (6Gbps) ports and supports hardware RAID. Now, you can merge the speed and compact size of M.2 solid state drives (SSD) with the storage capacity of traditional hard disk drives (HDD).

# Leverage the size and speed of M.2 drives

This M.2 controller card lets you take advantage of the size and performance benefits of NGFF SSDs. M.2 drives are smaller than typical platter drives or mSATA-based SSDs, so you can install them in small form-factor PCs and servers, or in tighter areas within your computer case.

When you couple the card with an M.2 drive, you can give your computer's performance a noticeable speed boost. By installing your operating system on the M.2 drive, you'll have faster access to the files you commonly use, and you can continue to use your higher-capacity platter HDD for bulk storage.

# Peace of mind, with simple and cost-effective data recovery

Due to their performance and size advantages, M.2 drives are commonly used in laptops. If your laptop has failed but its M.2 drive is functional, then this card can help with data recovery. Once the M.2 drive is installed and the data recovery is complete, you can continue to use the drive for storage and backup purposes.

# Build a high-performance RAID array

If you need a scalable, internal storage solution that you can count on, then this card can help. It supports a range of RAID configurations (RAID 0, 1, and 10), giving you multiple ways to expand your storage, improve your computer's performance, or to create data redundancy backups.

# Connect even more drives with port multiplication

www.startech.com 1 800 265 1844

Spec Sheet

Because the M.2 card supports port multiplication, you can connect up to four drives to one of the card's SATA ports. With a built-in port multiplier, you can install up to seven drives (two M.2 SSDs, five SATA drives) in your computer through this single drive controller.

# Supports a wide range of drives

You can rest assured that your M.2 SATA drives are compatible with the card. It supports the most common drive sizes, including 22110, 2280, 2260, 2242 and 2230. For more versatility, the card also supports hybrid drives.

The PEXM2SAT3422 is backed by a StarTech.com 2-year warranty and free lifetime technical support.

### Applications

- Increase the internal storage capacity of your standard or small form-factor computer
- Create a RAID array and add the security of data redundancy and increased storage to your PC
- Access and recover data from almost any M.2 SSD, such as drives pulled from laptops and other computers
- Optimize your system for I/O intensive applications such as office suites, photo and video editing, and media players

Spec Sheet

#### Features

- Recover data or improve the performance and storage capacity of your desktop, by adding two M.2 solidstate drives (SSD) plus two SATA III drives
- Create a high-performance hardware RAID array to protect and back up your data or expand your storage — supports RAID 0, 1, 10 (1+0)
- Wide installation compatibility, with support for virtually all M.2 NGFF drives (22110, 2280, 2260, 2242, 2230), as well as hybrid drives
- Port multiplier lets you connect up to seven drives total, including two M.2 drives
- Two M.2 B-Key onboard sockets that support SATA III transfer speeds up to 6Gbps
- Adjustable stand-offs, and multiple mounting holes support 110 mm, 80 mm, 60 mm, 42 mm, and 30 mm SSDs
- Fast, hassle-free setup with native support on most operating systems
- Compliant with PCI Express 2.0 standards
- Supports Native Command Queuing (NCQ), as well as ATA and ATAPI commands
- PCIe bus-powered, or powered by your computer's power supply using a 4-pin floppy power connector (small drive power)
- Equipped with a full-profile bracket, includes a low-profile (half-height bracket) for installation in small form-factor computers
- Installs into x4, x8, or x16 PCIe slots

#### **Technical Specifications**

Warranty	2 Years
Bus Type	PCI Express
Card Type	Standard Profile (LP bracket incl.)
Chipset ID	Marvell - 88SE9230
Industry	Serial ATA 3.0 specification - SATA I/II/III (1.5/3/6Gbps)
Standards	
Industry	PCI Express 2.0
Standards	
Industry	Hardware RAID 0, RAID 1, RAID 10
Standards	
Interface	M.2 SATA (NGFF)
Interface	SATA
Port Style	Integrated on Card
Ports	2
ATAPI Support	Yes
Bootable	Yes
Number of Drives Supported	1 to 4
Through Port	
Multiplier	
Number of Ports	2 (can only use 1 PM at a time)
That Support Port	
Multiplier	
Port Multiplier	Yes
	Yes
Supported RAID Modes	JBOD - (Just a Bunch of Disks)
Supported RAID	RAID 1 (Mirrored Disks)
Modes	
Supported RAID	RAID 0 (Striped Disks)
Modes	
Supported RAID	RAID 10 (1+0; Striped set of Mirrored Subset)
Modes	
Type and Rate	SATA III (6 Gbps)
Connector Type(s)	1 - PCI Express x4 Male

_			
	Internal Ports	2 - M.2 (NGFF; B-Key) Receptacle	
	Internal Ports	2 - SATA (7 pin; Data) Plug	
	Internal Ports	1 - SP4 (4 pin; Small Drive Power) Male	
	OS Compatibility	Windows® 7, 8, 8.1, 10	
		Windows Server® 2008 R2, 2012	
		Mac OS X 10.8 to 10.11	
	Note	Linux 3.5.x to 4.4.x <i>LTS versions only</i> The maximum throughput of this card is limited by the bus interface. If used with PCI	
	Note	Express Gen 1.0 enabled computers, the max throughput is 2.5Gbps per lane. If used with PCI Express Gen 2.0 enabled computers, the max throughput is 5Gbps per lane.	
	Note	The card's two SATA ports support port multiplier, up to seven drives total (including two M.2 drives). Only one SATA port can use port multiplier at a time, with up to four drives total connected through PM (in a non-RAID configuration)	
	System and Cable	System and Cable PCI Express x4 slot (backward compatible with x8, and x16 slots)	
	Requirements		
	LED Indicators	2 - M.2 drive LEDs (Green)	
	LED Indicators	3 - Pin headers for LEDs	
	Humidity	20%~80% RH (Non-condensing)	
	Operating Temperature	5°C to 50°C (41°F to 122°F)	
	Storage	-25°C to 70°C (-13°F to 158°F)	
	Temperature		
	Product Height	4.7 in [120 mm]	
	Product Length	7.1 in [180 mm]	
	Product Weight	2.4 oz [68 g]	
	Product Width	0.8 in [20 mm]	
	Shipping (Package) Weight	6.1 oz [174 g]	
	Included in Package	1 - M.2 SSD RAID controller card	
	Included in Package	1 - low-profile bracket	
	Included in Package	2 - M.2 mounting screws	
	Included in Package	1 - quick-start guide
