

Name: **Additional receiver for Powerline Extender IDAT
EXTPL-380P**

Manufacturer: **Techly**

- Receiver for additional HDMI extender HdbiT
- Easy to install, thanks to auto pairing just connect it to the existing electrical outlet and is coupled to the transmitter automatically
- High Definition Full HD 1080p
- Data transfer powerline up to 300 meters in the same network
- It supports the innovative IR 360 °, allowing users to remotely control the HDMI source side HDTV
- Infrared Extender
- Supports HdbiT
- Supports resolutions up to 1920x1080 @ 60i / 50i / 23.98p / 24p
- Transmission distance up to 300 meters for normal applications
- A transmitter can work with four receivers simultaneously
- Supports remote control from the source
- Incorporates technology Home Plug AV controller with 200 Mbps PHY
- Supports optimal QoS for streaming video
- 40 levels of security protection from electricity

Technical specifications

- HDMI signal fully compatible with HDCP
- Transmission Protocol HdbiT
- Resolution: 480i 60Hz, 60Hz 480p, 576i 50Hz, 50Hz 576p, 720P 50HZ, 720P 60HZ,

1080i 50Hz, 1080i 60HZ, 1080P 50HZ, 1080P 60HZ

- Transmission distance: up to 300 meters at 1080p @ 60Hz with a proper electric power plant
- Infrared remote control: supports 20 ~ 60KHZ
- Input voltage: 100 / 240V AC
- Power consumption: 7W
- Housing material: plastic non-combustible
- Safety against electrical damage: coupling circuit with fuse and ESD protection, tested for 24 days, 7 hours of work a day

Dimensions

- Width 150 mm
- Height 25 mm
- Depth 92.7 mm

Package Contents

- 1x Receiver extender
- 1x Power Cable 100 / 240V AC
- 1x IR Receiver
- 1x User Manual
