

---

Name: **Fiber Optic Cable ST/LC 5m 9/125 Singlemode C**

- 
- Compatible with single-mode fiber applications
  - High bandwidth to support longer distances
  - Economical solution
  - Ideal for use in applications, 10 Gigabit Ethernet and beyond

### **Characteristics**

- Diameter Fiber - Core: 9 microns; Coating: 125 microns
- Fiber Type - Single-mode
- OS2: 9/125 singlemode fiber cable used in networking over large areas or backbone applications between buildings with a distance of 40 km
- Connectors: ST to LC
- Duplex
- Coating: PVC
- Jacket OD: 3.0 mm
- Coating color: yellow
- Length: 5m
