

### Highlights

- Boost 3G/4G signal strength and extend WiFi range
- Deliver 802.11ac dual band WiFi performance
- Share connection wirelessly or over USB and Ethernet

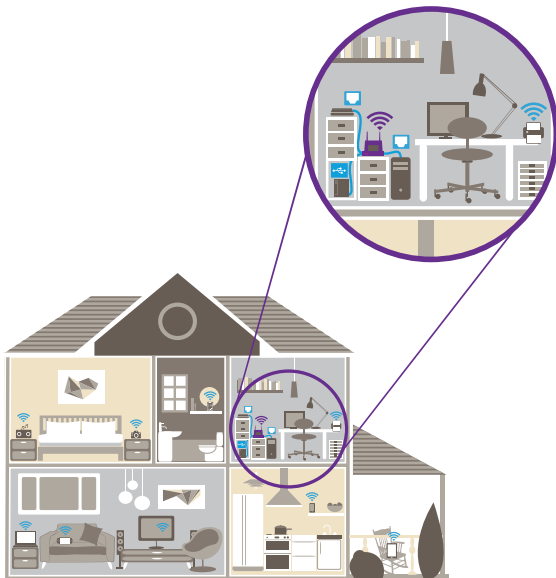

### Overview

Transform your NETGEAR AirCard mobile hotspot into a powerful LTE router with this AirCard Smart Cradle. With high-gain internal and external antennas, 1 USB port and 5 Ethernet ports, you can maximize the power of your mobile WiFi network and get the ultimate range and performance you need for your home and office.

### Key Features

- Boost 3G/4G signal strength for increased speeds and performance
- Four Gigabit Ethernet ports add router functionality to your mobile hotspot
- Ethernet WAN with failover to Mobile WAN offers the reassurance of always-on connectivity
- High-gain internal and external antennas
- ReadySHARE USB—One USB 3.0 port for fast wireless sharing

### Network Diagram

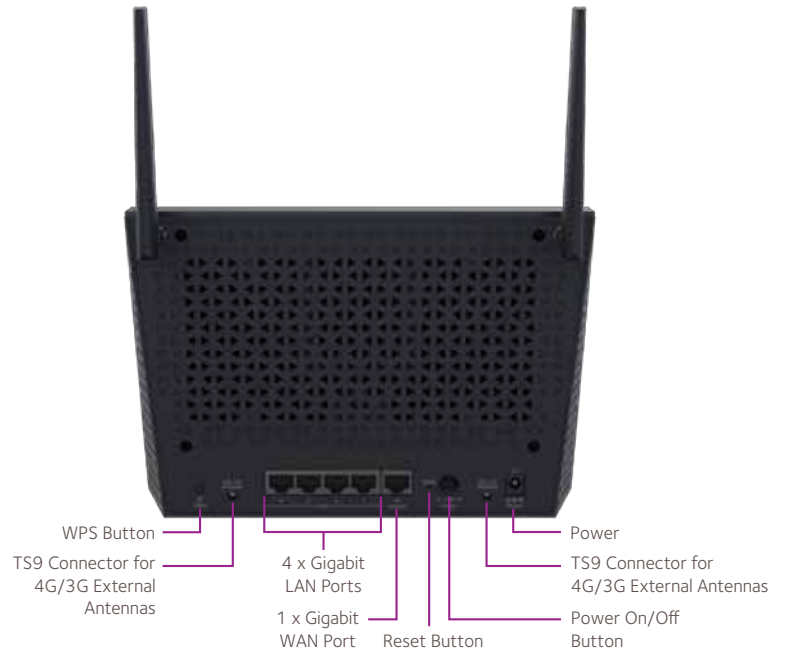

### Get Started in Just a Few Steps

1. Connect the charging cradle cable to the AC charger.
2. Insert the AC charger into an electrical outlet.
3. Insert your hotspot into the charging cradle.
4. Adjust the back support to accommodate your hotspot.
5. (Optional) Connect the Ethernet cable into the Ethernet port on the back of the cradle.
