Tap to talk

With its bold geometry and seamless profile, the Philips Monolith reflects the true art of communication. Smart touch technology, like Tap to Talk, is integrated in its genuine metal design for intuitive ease of use and superb comfort.

Exquisite design with high quality execution

- Sophisticated design with genuine metal frame
- Secondary display on the base shows caller ID and clock
- Charge handset either way around

Ultimate calling experience

- High resolution 5.1cm (2") TFT color display
- Tap handset for easy hands-free chats or extra sleep time.
- Up to 60 minutes of messages on your answering machine
- Assign ringtone to a specific contact
- Hearing aid compatible - reduces unwanted noise
- Baby monitor alerts you when baby needs your attention
- Black list, anonymous call, silence mode, call barring
- Talk up to 18 hours on a single charge

Eco-conscious product

- Zero power emission when ECO+ mode is activated

PHILIPS

Monolith design cordless phone
60 min answering machine 2.0" display/ white backlight, Handsfree speakerphone

M9951B/01

Highlights

5.1cm (2") TFT color display

High resolution 5.1cm (2") TFT color display

Baby monitor

Receive an alert when your baby needs you. Just place the DECT handset in the baby room and receive an alert on another DECT phone (i.e. another landline number) or mobile phone when the baby starts to cry.

ECO+ mode

Philips phones are energy efficient and designed to be respectful to the environment. When ECO mode is activated the emitted radiation is reduced by up to 60%, and up to 95% when the phone is charging. With ECO+ mode activation the radiation drops to zero.

Extended privacy settings

Black list restricts receiving calls from specific numbers or starting with certain digits, keeping you away from unwanted calls. You can block 4 sets of numbers. Each set of numbers can consist between 1 to 24 digits. When there is an incoming call that starts with one of these numbers or being one of 4 exact Caller numbers, the phone will not ring. With silence mode you can disable the ringtones for specific times to enjoy peace and silence. Thanks to Call barring you can avoid expensive phone bill surprise by blocking calls to specific numbers starting with certain digits.

Genuine metal frame

This sophisticated design features genuine die-cast metal that has been immaculately crafted and brushed for a truly refined look and feel.

Hassle-free charging

For reliability and convenience the handset can be charged in both directions of the docking station.

Hearing aid compatible

This feature enables the phone to couple with the hearing aid to amplify conversation while reducing ambient noise and the buzzing, humming, or whining noise that can otherwise occur.

Secondary display on the base

The Philips Monolith high contrast white-on-black display seamlessly and stylishly integrates with its base. The display shows the caller ID when there is an incoming call and the time when in idle mode. You can choose to turn off

the base display - so as not to be disturbed by any light - at any time.

Tap to talk. Tap to snooze.

Just tap the top of the handset when the phone is docked to answer an incoming call. Enjoy clear hands-free communication, thanks to the phone's built-in loudspeaker which comfortably amplifies the caller's voice. The secondary display shows the caller ID or phone number, so you can choose not to pick up unwanted calls. If you set the alarm and it goes off while the phone is docked, just tap the top of the handset to snooze for a few more minutes - for up to a maximum of 3 times.

Up to 18 hours talk time

Talk up to 18 hours on a single charge

Up to 60 min. recording

With 60 minutes recording time on your answering machine, you'll never miss an important message.

VIP Caller Identification

Assign a dedicated ringtone to your very important person the important people in your life. You would be warmly noticed whenever receive his or her phone call. It is possible to assign dedicated ringtones to up to 9 different contacts or group of contacts.
