EcoTank ET-2700

Meet Epson's next generation of EcoTank. This 3-in-1 inkjet with Wi-Fi is easy to use and comes with three years' worth of ink included[1].

When life is demanding, you need an ultra-low-cost printer that can take care of itself. With Epson's cartridge-free EcoTank, you receive three years' worth of ink included[1]– that means minimal refills and no extra ink costs. An ideal solution for busy households, this reliable and easy-to-use model features an enhanced ink filling system and new ink bottles engineered for mess-free refills.

Cartridge-free printing
Go longer between refills with EcoTank. It uses ultra-high-capacity ink tanks to completely remove the need for cartridges. In fact, it comes with the equivalent of 95 cartridges worth of ink[2].

Ultra-low cost
Three whole years[1] – that's how long you could go without buying more ink for the ET-2700. Giving you an extremely low cost-per-page, it produces an impressive 7,500 pages in black and 6,000 in colour[3].

Discover the next generation of EcoTank
With the ink tank now housed at the front, EcoTank is more compact and easier to use than ever before. Protecting you against leaks and spills, it features an enhanced ink filling system engineered for mess-free refills. The new bottles also incorporate a mechanism to ensure that only the correct colours are inserted. Thanks to the front ink level display, it's now easy to see when it's finally due for a refill. And with pigment black and dye colour inks, it produces prints with crisp, clear text and vivid colours.
Print from almost anywhere
With Wi-Fi and Wi-Fi Direct, you can send documents to print from smart devices using the Epson iPrint[4] app. It can even receive files from almost anywhere in the world via Epson Email Print[4].

Peace of mind
With a Micro Piezo printhead, EcoTank provides a reliable printing solution which is backed by a three year warranty (upon registration).

INK BOTTLE YIELD DATA

Included	6.500 pages*	5.200 pages*
Replacement	7.500 pages*	6.000 pages*

* Approx. page yield based on ISO/IEC 24711/24712 or ISO/IEC 29102/29103. Actual yield will vary depending on images printed and usage conditions. For more information visit http://www.epson.eu/pageyield

1. Based on an average print volume of 140 pages per month and considering the lowest yield produced from the first set of inks.
2. Average number of cartridges/savings for printing the number of pages using the bundled ink bottles with the EcoTank range, including hardware price. Comparison made on the average of the A4 EcoTank range versus the average of the top 10 best-selling models in Western Europe, in the period April 2016 – March 2017, as tracked by GfK. Printing costs calculated on the proportion of Standard and XL cartridges as tracked by GfK for the same reference period for the Western European market, using average retail prices. Ink cartridge yields as communicated by the manufacturer's websites.
3. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 based on the replacement ink bottles. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
4. Requires a wireless connection to the internet. For more information, supported languages and devices please visit www.epsonconnect.eu
