

Wall Mount PDW C L/P

Wall mount for Large Format Displays C Series

Seamless super slim wall mount -
landscape and portrait orientation

Perfectly complementing the slim and elegant design of the NEC C Series large format displays, the wall mount serves to position the display directly against the wall for a sleek and minimalist finish. Available in two variants, the wall mount accommodates both landscape and portrait orientation.

Landscape PDW T C L

Landscape PDW T C L

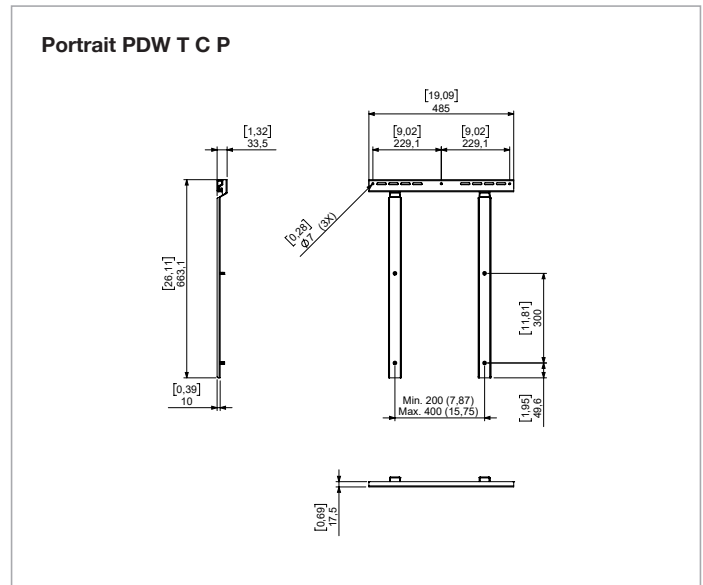

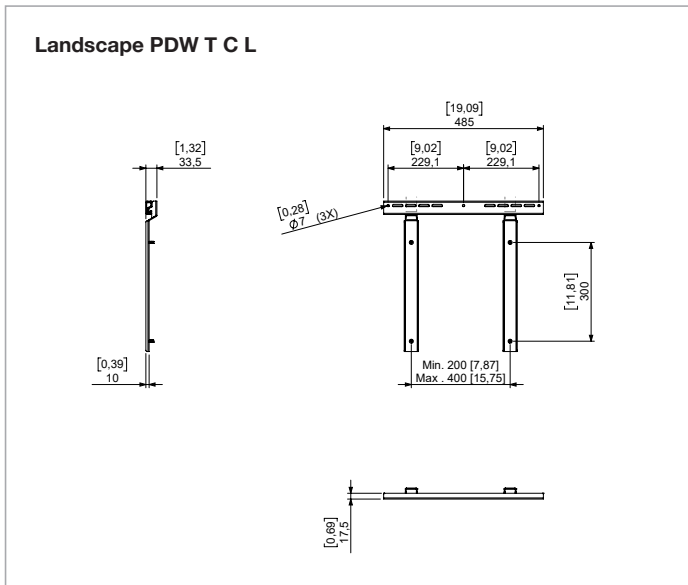

Portrait PDW T C P

Delivering Genuine Benefits

- **Attractive slim-line integration** – achieve the perception of the screen placed directly against the wall as the mount snuggles seamlessly to the back of the display.
- **Ease of use** – its simplicity of design and function offers supreme integration benefits with just a single model to fit all C Series Display sizes and a locking system for improved safety.
- **Cost efficient design** – the simple mount design offers a favourable price point whilst making no compromise to robustness.
