

3N1PS2EXT10

NEWSTAR KVM EXTENSION CABLE, PS/2

The 3N1PS2EXT10 is a KVM extension cable with a length of 3 meters.

This 3 meter NewStar universal 3-in-1 PS/2 extension cable, model 3N1PS2EXT10, has been designed of the highest quality tangle-free extension cables available.

This cable combine separate keyboard, monitor and mouse into one cable split apart at each end. This design makes him inherently tangle-free and easier to manage since the total cable count is reduced to 1/3.

This extension cable is compatible with any KVM switch, capable of using standard console connections like NewStar KVM Switches. The VGA video section of the cable is coaxial eliminating picture "ghosting" and fuzzy images, and using ferrite cores near the connector ends provides superior EMI interference protection.

SPECIFICATIONS

Connection	PS/2
