

HyperX Alloy Elite RGB Mechanical Gaming Keyboard

Unique radiant light bar delivers unmatched RGB brilliance.

The HyperX™ Alloy Elite RGB is a fully featured RGB keyboard that has as much stunning style as it has substance. Customise your keyboard or individual keys with RGB lighting, which is easy to set up using the HyperX NGenuity software. The solid steel frame helps ensure you'll have sturdy, stable controls in the midst of the most frantic action, while the Game Mode, N-Key Rollover and anti-ghosting functions keep all your keypresses on point. The Alloy Elite RGB comes built to satisfy any user's needs with dedicated media buttons, a USB 2.0 pass-through, quick access buttons and your choice from a variety of reliable CHERRY® MX keyswitches¹. Once you've customised your lighting and effects just the way you want them, save your set-up directly to the keyboard's on-board memory. Alloy Elite RGB also features a comfortable, detachable wrist rest and optional HyperX textured, titanium-coloured keycaps designed to help you find the most important keys faster when every millisecond matters.

- Unique radiant light bar and dynamic RGB lighting effects
- HyperX NGenuity software provides advanced customisation
- Solid steel frame
- CHERRY® MX mechanical keyswitches for reliability
- Feature-rich, designed for convenience
- On-board memory
- Comfortable, detachable wrist rest with soft-touch coating
- Additional titanium-coloured textured keycaps

HyperX Alloy Elite RGB Mechanical Gaming Keyboard

FEATURES/BENEFITS

Unique light bar and dynamic RGB lighting effects

Stunning style that will wow both friends and foes alike.

HyperX NGenuity software enables advanced customisation

Customise Game Mode, build macros and setup per-key lighting.
