24-Port Cat6a Patch Panel - 0.5U - Shielded - Dual IDC

Product ID: C6APANLHU24

This 24-port Cat6a patch panel is an efficient way to save space in your server racks.

Save valuable rack space and keep your cables organized

The compact patch panel condenses 24 network ports into a 0.5U panel that's ideal for installations inside 19" server racks. It's constructed out of heavy-gauge steel and includes an easy-access cover that protects the terminated cables and helps to keep them organized at the back of the rack. The back of the panel also features a C-shaped cable-management system to provide strain relief.

Ensure hassle-free network connections with shielded protection

The 24-port patch panel is color coded for both T568A and T568B universal wiring and offers straight ports with 110-type and Krone termination. The panel is shielded to protect against electromagnetic interference (EMI), when used with shielded cables. The panel will also support unshielded cables, but with no EMI protection.

The Ethernet patch panel is fully rated to support 10 Gigabit networks and is compatible with 26-23 AWG solid or stranded cables. It is also backward compatible with Cat6 and Cat5e cables.

Easily identify your cable runs

The panel offers a quick and easy way to identify your cable runs. It has port numbers clearly marked on the front of each RJ45 port, and has a writeable/erasable marking surface for efficient system management.

C6APANLHU24 meets or exceeds Cat6a specifications and is backed by a StarTech.com 2-year warranty.

Certifications, Reports and Compatibility

RoHS Compliant
Available

Applications

- For installation in 19" racks
- Organizing 26-23 AWG solid or stranded network cables
- For use in 10Gb networks
- Voice, video and other applications

Features

- Save valuable rack space with this compact Ethernet patch panel
- Protect cables and keep them organized
- Terminate your cables using either a 110-type or Krone punch tool
- Wire your cables using T568A or T568B color codes
- Shield network connections against EMI
- Easily identify cable runs

	Warranty	2 Years
Connector(s)	Connector Type(s)	24 - RJ-45 Female
Special Notes / Requirements	**Note**	IDC Contact : Phosphor Bronze with Tin Plating
Environmental	Humidity	0 ~ 65% RH
	Operating Temperature	-20°C to 60°C (-4°F to 140°F)
	Storage Temperature	-40°C to 70°C (-40°F to 158°F)
Physical Characteristics	Color	Black
	Enclosure Type	Steel
	Product Depth	3.9 in [99.8 mm]
	Product Height	0.9 in [22 mm]
	Product Length	19 in [483 mm]
	Product Weight	4.4 oz [125 g]
	Product Width	3.9 in [99.8 mm]
Packaging Information	Shipping (Package) Weight	4.4 oz [125 g]
What's in the Box	Included in Package	1 - Cat6a patch panel
		24 - cable ties
		2 - M6 screws
