

HVE-9111VT Version: 1

## VGA Audio over Cat.5 Transmitter, 300m

The LevelOne HVE-91xx series of Cat.5 Audio/Video Extenders is an ideal PC, player broadcast solution to transmit audio and video signals via Cat.5/6/7 cabling to multiple remote plasma or LCD monitor/screen.

Cost-effective Audio/Video Broadcasting over EthernetThe HVE-91xx series make use of inexpensive Ethernet cabling to transmit and receive audio and video signals. Signals can be transmitted up to 300 meters away from the transmitting unit.

The AVE-91xx receives the signal and translates it back to its original form making it possible for the remote monitor/screen to display the original signal. Cable Kits for Different ApplicationsThe units support VGA/SVGA/XGA TFT-LCD, LCDTV, PDP and DDC2B enabled projectors by using different format cable kits.

- PC Cable KitVGA A/V with support for all VGA standards Max Resolution: 2048x1536 at 300m
- TV Cable KitComposite/S-Video A/V Supports: 480i, 480p and 720i video format

Easy InstallationThe compact Cat.5/6/7 Audio/Video extenders easily fit on a desk or where space is limited. No software or interface cards are needed. All repeaters and transmitters are plug-and-play orientated for quick installation.

### Key Features

- Works with either VGA or HDMI receiver for greater installation flexibility
- Transmission distance of up to 300m for 4k2k resolution
- Screw-in power socket for added safety

### Specifications

#### System Specifications

**Port:**

VGA x 1+ 3.5mm Phone Jack x 1

**Button/Knob:**

DIP (EDID Remote / Local)

**Resolution:**

Up to VGA 2048 x 1536@ 60/70/75Hz

**Power Input:**

DC 5A2A

**Power Consumption:**

350 mA

**Bandwidth:**

600MHz

## Performance

**Operating Distance:**

300

## Environment

**Operating Temperature (°C):**

0° C ~48° C

**Operating Humidity (Non-condensing):**

0° C ~48° C

## Physical Specifications

**Dimensions (W x D x H mm):**

130x85x35

**Weight (g):**

375
