## ICY BOX **IB-MS304-T** Monitor stand with table support for two monitors up to 27"

### Requirements

The bracket is suitable for two monitors with a screen diagonal up to 27" and the VESA® standards 100x100 and 75x75. It is important that the monitors should not exceed a maximum weight of 6.5 kg each.

### With firm hold

The desk mount allows the IB-MS304-T to be attached to desks. The ingenious design ensures a uniformly distributed weight and firm hold on the desk.

### Movable

No matter how you like to work - the different joints can be moved in many angles. This allows the monitor to be aligned exactly as required. A full rotation of 360° is possible, just like adjusting the height, inclination or distance to the viewer.
