

Magnetic Air Vent Car Holder for Phone

245431

The equip[®] The Magnetic Air Vent Mount phone holder is a great solution for keeping your mobile device in good view while driving. The easy magnetic mount firmly holds your smartphone, with or without a case. The sturdy rubberized design fits securely on any car air vent. Just insert the holder into the air vent and either glue the metal plate to the smartphone or clamp it with a protective cover. The magnet will now hold your device in place, and allow you to remove the phone fast and easily, without having to open or close any brackets. The holder rotates 360° degrees for a variety of comfortable viewing angles.
