# Combining Great Technologies for Advanced Image Quality and Usability

## Embedded Deep Learning Chip

Supports the AcuSense algorithm for human and vehicle classification

The focusing performance of ultra-high definition ColorVu cameras is guaranteed by the active alignment technology and superlative quality control during production.

## Reliable Quality

## Advanced Hardware

Motorized varifocal lens F1.0 super large aperture 1/1.8" advanced sensor

Precise color rendition and image reproduction with advanced image signal processing algorithm

## Pioneering Technology

# ColorVu Varifocal Cameras

## Product Showcase

### DS-2CD2647G2-LZS

4 MP ColorVu Varifocal Bullet Network Camera

- 0.0005 lux @ F1.0
- Motorized varifocal lens, 3.6 to 9 mm
- Colorful imaging 24/7
- Human and vehicle classification
- H.265/H.265+
- IP67, IK10
- 130 dB WDR
- Audio/Alarm I/O

### DS-2CD2747G2-LZS

4 MP ColorVu Varifocal Dome Network Camera

- 0.0005 lux @ F1.0
- Motorized varifocal lens, 3.6 to 9 mm
- Color imaging 24/7
- Human and vehicle classification
- H.265/H.265+
- IP67, IK10
- 130 dB WDR
- Audio/Alarm I/O
