BT8385

VERTICAL COLUMN

BT8385 vertical support columns are the backbone of most Mode-AL installations. Made from durable aluminium, the column is sturdy yet lightweight to support single or multiple horizontal mounting rails. Columns are available in two lengths and feature removable rear and top covers to allow the user to run cables through the centre of the column for a tidy installation. Available in both black and silver finish the stylish design gives a high-end finish to any install in which they are used.
