FEATURES

- The fixing points of the Samsung Flip 2 are positioned high on the display, which means it does not pivot around its centre point when rotated from landscape to portrait. The BT7550-SF2 Interface Arms offset the fixing points to ensure the rotation of the screen is always central to the mount that it's fixed to.
- Designed to mount Samsung Flip 2 displays to B-Tech Flip Rotation mounts such as the BT7550 Wall Mount and BT8566 Designer Trolley
- Suitable for 55" and 65" Samsung Flip 2 screens
- To aid installation, integrated markings indicate the correct fixing points to use with either the 55" or 65" display
- All fixing hardware included
