Dark Power Pro 10 knows to perform

TechpowerUp is one of the most influential websites when it comes to power supply reviews. The test parcours is difficult and extensive. The website liked that our power supply can support full output power at a torturous 50°C. Above that the performance was great as they had seen in previously reviewed models in the series. The voltages were tightly regulated and the ripple/noise as low as it can get. They also particularly liked the rich package filled with loads of cables and accessories.

Technic3D praises the use of modern technologies

Renowned German online magazine Technic3D recently reviewed the 850 W model from the Dark Power Pro 10 series after previously praising the 550 W version. The more powerful model impressed the editors with its increased efficiency, the extremely low noise plus the already acclaimed features of the 550 W Dark Power Pro 10. Therefore it earns both the Gold and Eco+ award.
