Filing software

Rack2-Filer Smart
With Magic Desktop

PFU
a Fujitsu company

Anytime! Anywhere! Easily!
Digital bookshelf usable by anyone

Digitize catalog or manuals in one push!

Organize easily in digital bookshelf!
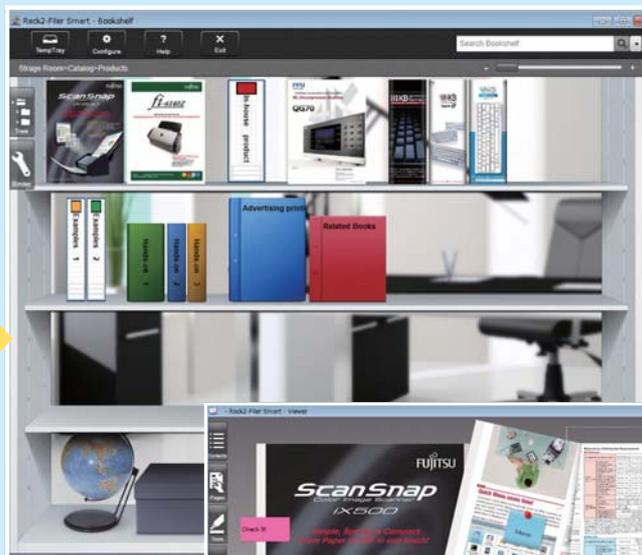

Even large volume of documents can be carried around anytime, anywhere!

Documents are all prepared in meetings!

With Easy Book Creation*1 you can create your own digital book with ease

ScanSnap SV600 is able to automatically recognize the height and width of the digital book, so a "real" bookshelf appears after scanning!

Share information by cloud services*2

Dropbox   SugarSync

*3

Share information such as photo albums you have created with friends by using cloud services

---

*1 Easy Book Creation feature is for ScanSnap SV600 only. Manually adjust the height and width of the book when using other ScanSnap scanner besides SV600.
*2 Need to install either Rack2-Filer Smart for iOS or Rack2-Filer for Android.
*3 Linkable cloud services: SugarSync, Dropbox

Can file various information and conveniently utilize it!

For example, you can file this!
- User's guides for household appliances
- Printouts distributed at school
- Travel company brochures
- Correspondence course text

Can also organize photos, greetings cards!

▶ **Photos**

Laid out as a photo album. You can also write comments.

▶ **Business Cards**
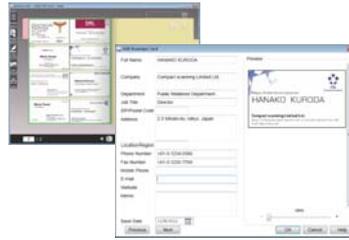

- You can display and manage up to 8 business cards per page by specifying [Business card page] when importing.
- You can search for business cards using information such as the name or company.
- In addition, you can import the business card information that is managed with CardMinder.

You also can manage your business cards in linkage with CardMinder*!

*CardMinder is an application bundled with ScanSnap for scanning business cards. Version 5.0 of CardMinder can scan business card information to Rack2-Filer Smart.

Convenient search function

■ Can quickly search for binders and pages by using arbitrary keywords.

■ Can Immediately access the found information.
Search for title, reference code, contents information, index, annotation data, keyword, text on page and business card information.
