Easy to connect and enjoy

- Simple and easy - to - use interface menus
- Component Video Input for top quality viewing

Crisp and Clear sound

- Perfect Bass / Treble / Balance for enhanced audio enjoyment

PHILIPS
sense **and** simplicity

Highlights

Digital Black Stretch

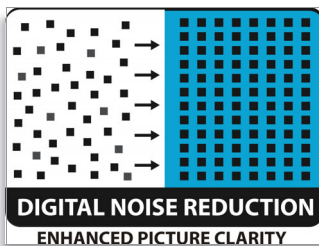

Philips Slim TV uses a slimmer CRT tube to give an overall slimmer TV that is up to 40% thinner than a traditional CRT TV while delivering the better contrast and superior picture quality with built in Digital Black Stretch circuitry

Picture Enhancer

Combining picture enhancement with Digital Black Stretch and color improvement enhances picture clarity

Digital Noise Reduction (DNR)

During weak signal transmission , random noise will appear on the image. When viewed, the image contains dark and white dots. Noise reduction significantly reduces the appearance of these dots , hence creating a pleasant viewing experience

400W PMPO Sound Output

You can enhance audio experience with the selection as per your choice for Bass , Treble and Balance

DVD Component In

Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video

English / Hindi OSD language

You can enjoy and relax with the simple and easy GUI
