Highlights

Digital Black Stretch

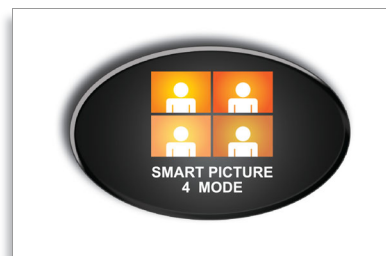

Philips Slim TV uses a slimmer CRT tube to give an overall slimmer TV that is up to 40% thinner than a traditional CRT TV while delivering the better contrast and superior picture quality with built in Digital Black Stretch circuitry

Dynamic Skin Tone

Philips built-in Dynamic Skin Tone circuitry ensures that the colors on the TV screen are vibrant and true because of which the viewer gets to see pictures that are close to natural skin colors

Smart Picture - 4 Mode

Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program that will maximise your enjoyment of movies

100W PMPO Sound Output

By connecting the TV to an AV source with stereo sound , the TV converts the mono signal to spatial stereo for a perfect audio experience

English OSD language

You can enjoy and relax with the simple and easy GUI
