

Philips
In-Ear Headphones

SHH8808

Deep, powerful, sound stage

for your mobile phone

These mobile phone headphones produce an ultra-wide sound stage with deep and powerful acoustics. Precisely tuned 13.5 mm driver units and the sound stage enhancer design ensure superb sound with stunning clarity.

Enjoy quality sound

- Sound stage enhancer designed for spacious sound experience
- Angled Acoustics design provides exceptional noise isolation
- Powerful microdrivers deliver the widest frequency range
- Philips iLab acoustic tuning yields deep and powerful sound

Ultimate wearing comfort

- Ergonomic Angled Acoustic design ensures a natural fit
- 3 sizes of ultra-soft silicon caps ensure an ideal fit

Fits your music phone

- Microphone friendly cable length

Always ready to go

- Symmetrical cables come in equal lengths to avoid tangle
- Durable Flexi-Grip makes a strong flexible connection
- Anti-tangle slider
- Split cable enables convenient remote control connection

PHILIPS
sense and simplicity

Specifications

Sound

- Magnet type: Neodymium
- Frequency response: 6 Hz - 23 500 Hz
- Sensitivity: 99 dB
- Maximum power input: 50 mW
- Impedance: 16 ohm at 1kHz
- Speaker diameter: 13.5 mm
- Type: Dynamic

Connectivity

- Cable length: 0.30 m + 1 m
- Connector: 3.5mm stereo
- Finishing of connector: Gold plated

Accessories

- Extension cable: 1m
- Storage pouch

Inner Carton

- EAN: 87 12581 45018 2
- Number of consumer packagings: 3
- Inner carton (L x W x H): 11.1 x 10.2 x 19.2 cm

- Gross weight: 0.2813 kg
- Nett weight: 0.027 kg
- Tare weight: 0.2543 kg

Outer Carton

- EAN: 87 12581 45017 5
- Number of consumer packagings: 24
- Outer carton (L x W x H): 23.9 x 22.1 x 41.2 cm
- Gross weight: 2.5823 kg
- Nett weight: 0.216 kg
- Tare weight: 2.3663 kg

Packaging dimensions

- EAN: 87 12581 45016 8
- Number of products included: 1
- Packaging dimensions (W x H x D): 10.2 x 18 x 3 cm
- Gross weight: 0.0642 kg
- Nett weight: 0.009 kg
- Tare weight: 0.0552 kg
- Packaging type: Blister

Highlights

Sound stage enhancer design

The sound stage enhancer design modifies the conventional headphone structure to complement the powerful microdrivers in producing a wider sound stage effect.

Angled acoustic design

Derived from a thorough understanding of the anatomy of a human ear canal, the Angled Acoustic design adjusts the angle of the speaker tube and ear bud to individual ear canal shapes. Besides delivering sound directly to your ears, it also creates a perfect seal from ambient noise that enables you to listen to your music at lower volume levels.

Deliver wide frequency range

Specifically designed microdrivers produce extra deep bass and wider dynamic range to unleash the full potential of your Ipod nano.

Philips iLab acoustic tuning

Meticulously tuned by Philips' state-of-the-art iLab expertise, the wide band sound stage from these headphones make for an unforgettable listening experience. The underlying iLab technology ensures greater output from lower frequencies and helps to create a more balanced and accurate sound than that offered by traditional earphones.

Ear fitting design

The design superiority of a slight 15-degree tilt in the Angled Acoustic model based on the anatomy of the human ear achieves a natural fit and supreme comfort.

Mic friendly headphones

The cable length of these headphones is designed to optimize sound pick up from the microphone of your headset connector. It also optimizes overall cable length of these headphones combined with a headset connector. Headset connectors allow the use of standard headphones (without a mic and with a standard 3.5mm headphones plug) with a mobile phone. They often come with mobile phones but can also be purchased separately. For most mobile phone brands Philips SHH1XXX headset connectors are available. It also optimizes overall cable length to the mobile phone.

3-size ultra-soft silicon cap

Available in three different sizes (small, medium and large), the interchangeable ear caps ensure a personalized fit to each individual user. They are also made from ultra-soft silicon to provide the utmost comfort for prolonged listening.

Split cable

This standard cable has a 3.5mm socket on one end and a 3.5mm plug on the other for extending your freedom of movement with headphones.
