# PHILIPS

sense and simplicity

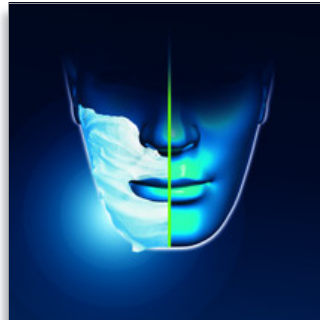

# Highlights

## GyroFlex 3D Shaver

GyroFlex 3D contour-following heads of the shaver adjust seamlessly to every curve of your face, minimizing pressure and irritation on your skin.

## Aquatec

The Aquatec wet & dry seal of the electric shaver lets you choose how you prefer to shave. You can get a comfortable dry shave or a refreshing wet shave using a shaving gel or foam for extra skin comfort.

## Jet Clean+ system

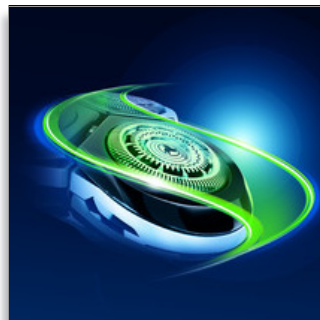

Our Jet Clean+ System cleans and lubricates the blades and recharges the battery after every use. It offers 3 cleaning settings: automatic for normal usage, eco for 40% less energy usage, and intensive for extra-thorough cleaning.

## UltraTrack Shaver Heads

Get a close shave that minimizes skin irritation. The shaving head has 3 specialized tracks: slots for normal hair; channels for long or flat laying hair; and holes for the shortest stubble on your face.

## SkinGlide

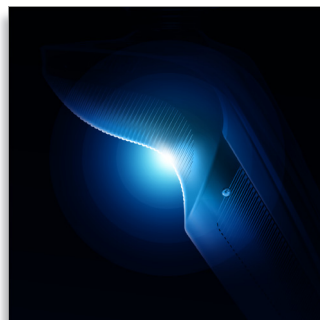

The low-friction SkinGlide shaving surface of the electric shaver slides smoothly along your skin for a close easy shave.

## Super Lift & Cut Action

The dual blade system built into the Philips electric shaver lifts hairs to cut comfortably below skin level for a closer shave.

## Easy grip

The easy grip shaver handle has an ergonomic grip with anti-slip coating, ensuring close control for an extra precision shave.
