

## HP High-Performance Secure Hard Disks

HP High-Performance Secure Hard Disk • HP High-Performance Secure EIO Hard Disk

Experience advanced, automated protection and enable your HP printer or multifunction printer (MFP) to do more.

### Secure valuable information

HP offers two high-performance secure hard disk options, each with a cryptographic solution that secures information while maintaining printer or MFP throughput and performance. Advanced Encryption Standard (AES) reduces the risk of stolen data or lost productivity and helps provide assurance that your information is safe. AES technology ensures that the printer secure hard drive data is not readable if the hard disk is removed from the device because the information is protected by encryption.

### Investment protection

Choose from two options, including an internal secure hard disk and an external (EIO) secure hard disk. Both of the HP High-Performance Secure Hard Disk options are an easy one-time installation, and once installed, your data is immediately protected by encryption. Device performance and reliability are not impacted.

### Easy installation and management

Protecting information on your current HP device doesn't have to be complicated—simply upgrade your HP printer or MFP with either of the HP High-Performance Secure Hard Disks that you can install yourself.

Easily install the HP Internal High-Performance Secure Hard Disk into your HP printer or MFP and preserve your EIO slot for extended capabilities, including wireless options and third-party solutions.

With the HP High-Performance Secure EIO Hard Disk, you can avoid the internal installation process and simply insert it into your HP device's EIO slot. The HP lock adapter, included in the box, deters access to the EIO hard disk by allowing you to secure the disk with a separate Kensington-style lock.<sup>1</sup>

HP makes managing the hard disks an incredibly simple task. Use the Embedded Web Server (EWS) to manage the device or take advantage of HP Web Jetadmin capabilities to manage your fleet of devices.<sup>2</sup>

Get the quality and reliability you expect with telephone support and a one-year return-to-HP warranty.

<sup>1</sup> Kensington-style lock not included; sold separately.

# HP High-Performance Secure Hard Disks

Technical specifications	HP High-Performance Secure Hard Disk	HP High-Performance Secure EIO Hard Disk
<b>Part number</b>	J8018A	J8019A
<b>Form factor</b>	Internal 2.5 in disk	EIO disk
<b>Encryption algorithm</b>	AES 128-bit	
<b>Supported devices</b>	HP LaserJet MFP: M4345, M5025, M5035, M9040, M9050; HP Color LaserJet MFP CM3530; HP Digital Sender DS9250c; HP LaserJet SF CP6015	HP LaserJet MFP: M4345, M5025, M5035, M9040, M9050, CM6040, CM6030, CM4730, M3027, M3035; HP Color LaserJet MFP CM3530; HP Digital Sender DS9250c; HP LaserJet SF CP6015, CP3525
<b>Dimensions (w by d by h)</b>	3.15 by 4.2 by 0.55 in	3.5 by 6.1 by 1.23 in
<b>Weight</b>	0.22 lb	0.44 lb
<b>What's in the box</b>	HP High-Performance Secure Hard Disk, Documentation CD, Installation guide	HP High-Performance Secure EIO Hard Disk, Documentation CD, Installation guide
<b>Warranty</b>	One-year limited hardware warranty	
<b>HP Carepack Service</b>	HP High Performance Secure Hard Disk Installation and Startup Service: Install an HP High-Performance Secure Hard Disk accessory by replacing the printer's existing internal hard disk. With this service, an HP service technician travels to the customer location, de-installs the current internal hard disk, installs the HP Secure Disk, and configures the printer to encrypt all data stored on the HP Secure Disk.	
<b>Carepack part number</b>	UL624E	
<b>Environmental ranges</b>		
Operating temperature	32 to 122 degrees F	
Non-operating temperature	23 to 131 degrees F	
Operating relative humidity	8 to 90 percent	
Non-operating relative humidity	8 to 90 percent	
<b>Certifications</b>		
Safety	Complies with IEC 60950-1: 2001/EN 60950-1: 2001	
EMC	USA (FCC Title 47, Part 15 Class B)
