

## Simple document archiving options

### 1 Scan to PDF

Create digital files that can be easily stored and shared via email, using a one-touch button.

### 2 Scan to email

Quickly scan documents and images directly into email for easy sharing.

### 3 Copy

Print copies of documents or images—using the PC's default printer. With one-touch copy button, your scanner functions just like a copy machine using your PC and printer.

### 4 Edit text

The scanner's Optical Character Recognition (OCR) recognises and converts scanned documents and magazines—such as letters and articles—into editable word processing files.
