

HP Designjet T1120 SD-MFP

A trusted choice for demanding professionals

New affordable, easy-to-use integrated HP MFP

Fast, intuitive operation improves user efficiency

- Avoid the back and forth between devices. Easily perform key functions—such as copy, scan to USB or network, and file management—from the scanner touchscreen interface.
- Easily maintain this MFP and its supplies with HP Printer Utility and the self-sufficient scanner that does not require calibration at installation. LED lights help you to diagnose any issues.
- You're in total control with a new HP MFP that's easy to manage thanks to the HP Embedded Web Server.
- Concentrate on your customers and your projects thanks to this MFP's timesaving features, such as a CIS scanner that doesn't require a warm-up period.

Superior line and text quality at the right price

- Produce highly accurate drawings with a printer and HP Vivera inks that deliver outstanding details—with 0.1% line accuracy⁰. The HP Three-black ink set including a gray HP Vivera ink—produces true neutral gray, accentuating the detail in your prints.
- Powerful presentations—HP Vivera inks produce a range of colors, from vivid color to soft tones.
- See high-quality results—especially for lines and text—with CIS scanning technology and 1200 dpi optical resolution. Scan or copy archived documents of existing buildings or "as-build" drawings to share with colleagues or clients.
- Produce optimized results easily with predefined media profiles and settings for the originals you use most often. You don't have to spend a lot of time adjusting settings whenever you want to copy or scan.

 Media versatility—including over 35 Original HP media—provides additional flexibility.

Dependable, unique integrated HP solution

- Get back to work quickly knowing detailed prints are not a problem thanks to In-printer processing architecture and an 80 GB HDD.
- Convenient single-vendor solution—built together to work together. There's no greater convenience than having a single device with multiple functions and features reliably working in tandem to provide a very effective, very viable solution.
- Save valuable workspace with this ergonomic multifunction device. It also includes a 23 cm (9 in) touchscreen panel positioned on top of the scanner, which creates additional room in your office.

80 GB
