

hp two-view cling

speciality printing materials

hp designjet 5000, cp, 800 & 500, series printers

HP Two-View Cling is a 220 micron reverse-print translucent adhesive polyester film for sophisticated graphics. Matte on one side with a low tack adhesive glue on the other side, HP Two-View Cling is ideal for mounting on all smooth surfaces such as windows and can be repositioned without any glue-rests on the surface.

benefits

- High quality print results with brilliant colours and sharp edge definition
- Special coating protects image from oxidation and fading and extends image life
- Durable scratch resistant matte coating
- High density inkjet receptive coating allows heavily saturated images without puddling
- Unique ultra white diffusion layer
- Designed for wide format graphic arts inkjet printing and compatible with water-based dye inks

applications

- Specially designed for shop windows as printouts can be viewed from both sides
 - Matte side designed for mirror-type printing
 - Transit displays
 - Photographic, POPs and indoor window signage
- Limitations: HP Two-View Cling is not water resistant or waterproof and cannot be printed with uv inks.

product specification

weight	240 g/m ²
thickness	240 microns
opacity (without linen)	60-75 DIN 53146
country of origin	Switzerland

environmental specification

operating temperature	23°
operating humidity	50%
lightfastness	> 3 months indoor; >1 month outdoor
dry time	< 5 min for HP 5000 series < 4 min for CP series < 8 min for HP 500/800 series
shelf life	2 years

mounting and finishing

lamination	cold
mounting	Film is easily mountable on all smooth surfaces such as Windows and can be repositioned without any glue-rests on the surface
