HP Laser Paper, Matt

+hp

Designed for customers wanting to use their HP LaserJet printers to produce professional-looking colour documents. With the ability to print on both sides, this heavyweight 160 g/m² paper is ideal for printing datasheets, presentations and proposals.

Produce high impact documents with rich, vivid colours.

- Flat matt finish brings a rich, high quality look to all your documents.

- Ultra-smooth surface delivers crisp, sharp text, impressive greyscale definition and rich, vivid colours.

- Produce professional-looking documents from your colour laser printer or copier.

- Bright white paper ensures superb contrast for mono and colour documents alike.

Make sure your documents feel as impressive as they look.

- Heavyweight 160 g/m² paper gives a really substantial feel to your printed materials.

- Immediate impact makes this superb paper perfect for cover sheets as well as entire high value presentations.

- Smooth surface also ensures a quality feel – people notice it as soon as they touch it.

- Part of the HP family of laser papers, enabling you to produce mixed-media documents with a consistent quality.

Print both sides with no show-through.

- High opacity paper – produce one-sided or two-sided documents without show-through.

- Choose it when you need to make an impression – ideal for high value documents such as reports, brochures, newsletters, direct mail and other marketing materials.

- Allows rapid, cost-effective in-house production of short-run, professional quality materials that would otherwise require an external print shop.

Enjoy reliable, high quality printing every time.

- Designed to deliver optimal performance with HP Color LaserJet printers.

- Fully compatible with most other laser printers & copiers capable of printing on 160 g/m² paper.

- Maximise your productivity and minimise waste with fewer jams, multi-feeds and mis-feeds.

- Low user intervention means you can leave documents to print and concentrate on getting other things done.

This heavyweight matt laser paper features a smooth two-sided finish for crisp black text and rich, bright colours. Its 160 g/m² weight and high brightness make it ideal for in-house printing of professional-quality marketing materials.
