

# DO MORE WITH HP ACCESSORIES

## HP Wireless Comfort Mobile Mouse Special Edition Espresso

### HP Wireless Comfort Mobile Mouse Special Edition Espresso

Get great performance and advanced mousing with the espresso HP Wireless Comfort Mouse, which combines style and ergonomic features in a modern, affordably priced design

- **Style, comfort and eco-friendly**

The sleek espresso symmetric design suits both left- and right-hand users while the rubber coating gives you enhanced control and comfort. Additionally, the mouse features automatic power saving features and energy efficient components

- **Laser performance**

High-precision laser sensor provides precise, smooth and responsive tracking. No need to travel with a mouse pad as laser tracking works on more surfaces than standard optical mouse tracking. No ball or cleaning required

- **Advanced scroll wheel**

A four-way tilt scroll wheel allows you to navigate right and left. The textured wheel, ratcheted scrolling design and Teflon feet have been optimised to provide control, speed and accuracy

- **Wireless freedom**

Advanced 2.4GHz wireless technology means less interference, longer range of operation and no wires to tangle. The micro-receiver is so small you can leave it plugged into your notebook (no more broken or lost receivers!)

- **Programmable buttons**

Two easily-accessible programmable buttons allow you to launch applications, control sound volume, navigate backwards and forward, zoom in and out and launch your favourite websites
