

HP Long Life Battery

Get more life out of your battery—and your budget.

When it comes to power solutions for notebook PCs, today's businesses are essentially looking for the same things: an affordable solution that helps reduce the total cost of ownership (TCO); longer lasting battery life to help keep mobile workers at their most productive; and reliable, consistent performance over a longer period of time to help preserve and extend their technology investment.

With the new HP Long Life Battery, business customers can enjoy these benefits and more—all from a highly innovative power solution that's helping to set a new industry standard.

Compatible with select models of HP notebook computers, the HP Long Life Battery can lower your cost of ownership by delivering lasting performance for twice as long as the industry average. That means there's no need to purchase a new battery in as little as 18 months of use, when other batteries typically need to be replaced. And because this new power solution from HP still provides a high percentage of its original capacity for up to three years, businesses can re-assign current batteries and notebooks to other employees while refreshing batteries for highly mobile workers, further extending the value of their initial purchase and generating an even greater return on investment.

With the industry's first three-year battery limited warranty¹ and accreditations from multiple environmental organizations, the HP Long Life Battery truly represents a game-changing breakthrough when it comes to dependable, long-lasting power solutions.

If your organization is being tasked to improve productivity while lowering ownership costs for notebook power solutions, the HP Long Life Battery can deliver greater returns and better sustained performance over time.

The HP Long Life Battery offers business customers:

Lower total cost of ownership

One battery has a three-year life span—up to twice as long as most Li-Ion notebook batteries,¹ eliminating the need to purchase new replacement batteries after as little as 18 months of use.

An industry-first guarantee

Enjoy worry-free performance with the industry's first three-year limited warranty on a long-life battery.

Greater return on investment

With a full three years of warranted performance,¹ businesses can refresh batteries for highly mobile workers while reassigning existing batteries to other employees to extend the value of the initial purchase.

Designed with the environment in mind

Longer life means fewer batteries are purchased and consumed, which translates into fewer batteries littering landfills.

Simplicity

Batteries can quickly and easily be replaced and installed in notebook PCs without the assistance of a technician.

TECHNICAL SPECIFICATIONS

Part number	AU213AA
Cells	4.4 Ah
Watt hour capacity	47 Wh
Battery life (daily)—hours	Up to 4 hours ²
Useful life (entire lifetime)	Up to 3 years
Warranty	3 years or 1,000 cycles ¹
Charging time (System off mode or Standby)	System off: 2.5 hours Standby: 3 to 5 hours
