Deployment Guide

1. Before Deployment

Congratulations on purchasing the AudioCodes RXV80 Standalone Video Collaboration Bar! Before you deploy the product, make sure you received the following items in the shipped box (the USB Dongle is already connected to the upper USB port on the rear panel of the device):

2. Physical Description

The figure below shows the RXV80. The connector ports are at the RXV80's rear (see Cabling).

3. Positioning

For the best viewing angle, position the device at a height of 178 cm | 70 inches (as shown below left) and position the viewers within a radius of a 110-degree angle (as shown below right).

To mount the RXV80 on top of a TV (with the cleanest cable management), use this figure as reference:

- 1. Open the hinge of the RXV80 (see figure below left).
- 2. Set the RXV80 on top of the TV with the cables behind the TV (see below one from left).
- 3. Close the hinge and tightly press against the TV back (see below one from right).
- 4. Connect the required cables (see below right) and then follow the instructions under Getting Started.

5. Mounting on the Wall Above the TV

To mount the RXV80 on the wall above the TV, use this figure as reference:

- 1. Secure wall mount to wall using a screw driver, level and fasteners (see figure below left).
- 2. Plug in the required cables (see below one from left).
- 3. Rotate the hinge 180° backwards (see below one from right).
- 4. Fasten RXV80 to mount using tripod screw (see below right).

6. Cabling

Use the following figure as reference. The cables and connectors you'll use to connect to the rear panel are shown under Before Deployment.

Note:

- For more information about the USB dongle, see the RXV80 Standalone Video Collaboration Bar USB Dongle Installation Manual.

7. Getting Started

- To get started:
- 1. After connecting the cables, remove the remote control from its packaging and insert the batteries supplied into it.
- 2. View on the display the message Remote control is not connected. Press the buttons below while holding the remote control near the box.

	C Android System	
Languages	Remote is not connected	
English (United States) Main language	Hold below buttons while holding the remote near the box	
Deutsch		
English		
Español		
Français		
Italiano		
Magyar		
Nederlands		
Norsk bokmål		
Polski		

- 3. On the remote control, press and hold the home and menu buttons; the following message pops up and disappears after a few seconds: Connecting... → Remote Connection Succeed.
- 4. View the message Teams app is updating. Please wait....

5. View the Teams Phone is starting message on the display.

6. View the Microsoft Teams Sign in prompt that then appears.

7. Use the remote control to navigate to and select the **Sign in** button; the Company Portal opens displaying the Microsoft Teams sign-in screen.

8. Signing in

To sign in:

 In the Company Portal's 'Sign in' screen, use the remote control to navigate to the 'Email or phone' field.

2. Use the remote control to enter your email or phone number and then select Next.

 Follow the instructions presented in the screen; make a note of the code displayed in the Microsoft Teams app and then on your pc, point your browser to the URL <u>https://microsoft.com/devicelogin</u>.

4. Use the remote control to enter the code and select **Next**.

Microsoft Teams	
Microsoft	
<u> </u>	
Back	

5. View the Microsoft Teams Got it prompt on the display.

6. Use the remote control to select **Got it**; the RXV80 home page is displayed.
